Maintenance update

Our areas, are so vast, that at the end of our to do list, it is time to start all over again, as our work is repetitive.

Animated Gallery

To date we have trimmed most of our grasslands. The dead Moribund have been removed off all of these areas, plus weeding of invasives along the way.

Cleaning of our dams is always ongoing and we are happy to say that we have sorted the problem with the dying fish.

We have also fixed the damaged path in Butterfly Walk in three places along the gullies. Thank you maintenance for your assistance.

Most of our garden beds where plants were damaged by the winter frost, have been replanted and fixed. Our team have also completed a big blitz on weeds behind the 16th hole grassland triangle area.

We have assisted Golf with the lifting of the Olive tree at the 5th hole. Whilst in that area, we completed a blitz and cleaning up of the dam, removing invasive plants and opening up the area for more visibility to the dam.

We did a big blitz on the pretty, but invasive Yellow Flag Iris's, down in Poplar Marsh, and all the way to the 9th fairway, as there were many. The same in Trent Stream, this takes time, as the guys need to wade into the water to release and pull the Iris's out.

There are a lot of Flag Iris's, down some areas, which are quite difficult to get too and can be quite hazardous. The team are busy working their way into Rocky Ridge and a short stretch down and into the Jukskei River where the Irises have been spotted.

Birdwalk

The cleaning of our Dam's in Saw Grass is always ongoing in between taking out the invasives that pop up in and around the grasslands, and also removing the Water Hyacinth, as and when they appear.

The new Grass we seeded in Saw Grass where we had soil erosion is growing beautifully, so we will pursue this as and when the rains come. We now pray for some good rains, sooner rather than later...and always keep our fingers crossed and hope that the Combretum Trail stays intact when the rains and flooding start.

Dams in Highgate have been sorted out, with a new pump to get more oxygen into that dam.

We are heading to the 15th Fairway Rose dam area for a big blitz, of grass, Flag Irises, trees and shrubbery which has got out of hand after a couple of seasons of neglect and growth along the bank of the dam. There is a lot of debris to take out.

Two benches have been replaced. One at the start of Buffalo Thorn walk which looks over the river, which makes a lovely resting place for tired legs on ones walk around our beautiful estate.

The other along the boundary walk up Cassuarina Lane way which is also a nice place for a rest, heading up to Highgate dam areas.

As you can see the DNA have been very busy behind the scenes.

The latest DNA organised birdwalk kicked off earlier than usual, at 6h30 on from the clubhouse. A smallish group, mostly new people, of around 20 enthusiasts undertook the walk under the guidance of Wim Spronk. The walk left the clubhouse and progressed through the Poplar Marsh area and ended up in the Sawgrass Dams.

The group identified 48 species on the 2 hour walk and the dams offered up a host of water birds and other delights. A special sighting included the African Warbler that had not been seen by anyone before in Dainfern.

Watch this space and please come and join us at the next Bird Walk that will be announced in due course.

Birds and Beasties

We have some amazing wildlife on the estate which Geraldine Harris recently photographed.

Operational Report DAINFERN

By Peet Trollip - Operations Manager

The first month after our AGM has been very successful. Working with our new Chair, Ms Geraldine Harris has ensured that we are concentrating on many areas within the Estate and embarking on a journey to ensure visible results.

Maintenance

Our maintenance team has been inundated with sewer and water issues, and they have done exceptionally well to ensure the turnaround has been very efficient.

Dainfern Passion Roses growing beautifully around our Estate.

Fire Alert

We were made aware of a fire on the Estate where a solar battery caught alight.

We urge residents to ensure that when they are installing solar systems, the company is reputable, and they can issue a full COC (Certificate of Compliance) for the work they have completed.

Rugby World Cup 2023

We had some riveting weeks of rugby, and it was wonderful to feel the excitement as our residents were supporting their teams.

Hundreds of residents and visitors watched the final at the Clubhouse and the atmosphere was electric with excitement as they won the final match.

Well done to our "Bokke" - we are #Strongertogether

Thank you to the residents that have decorated their homes and villages.

World Cup Mascot at Sherwood Village

Successful events held

Our MaDD Spring Fair was just on another level – 105 small businesses and 5 township street vendors had the opportunity to showcase their products and it was well supported by the residents. Congratulations, once again, to the MaDD team of ladies for this event, and thank you to our entire DHA team for their involvement and support too.

Dainfern

Feedback from the MaDD ladies

The money raised will be used for crisis intervention, medical examinations, supportive therapy, forensic evaluations, psychological evaluations, court preparation programs, prevention education and elderly care that will directly impact women, children, and the elderly.

We are honoured and delighted to report that together, we've generated desperately needed funding in the approximate amount of R163,000.00 which will be donated directly to the Teddy Bear Clinic and the Pat Rico Elderly Care Home.

International E-Waste Day

We had a huge amount of e-waste dropped off at the Clubhouse and they also collected items from the homes of residents. Thank you for recycling responsibly.

The Book Launch and Breakfast

Hosted by Julie Cunningham, the morning went well and the ladies had a wonderful time. The food was exquisitely presented by SIX33 and the staff were exceptionally helpful.

Daredevil Run

Dainfern College students and staff ran through the estate early on Friday, 13 October and later that day we hosted the residents in a race of their own (for those who were unable to run earlier that day).

Golfing Update

CGGU Ladies League

From the golfing side, we'd like to congratulate our ladies league LW1 Team on winning their division for this year's CGGU Ladies League.

CGGU Betterball League

We congratulate our Men's Betterball Team for finishing second in the A-Division in the CGGU Betterball League – they finished one point behind the winners.

SA Senior Amateur Championships

Congratulations to Mr Neale Gandy who finished as the runner up in the Super Senior Section of the SA Senior Amateur Championships played at Sishen Golf Club in October. In the main Senior Championship, Mr Gandy finished tenth overall.

The sixth hole bunker

On the golf course, we have finished reconstruction of the sixth hole bunker. Thank you to Golf Data and Bunker Armour as this bunker has turned out

incredibly well, and we have received a lot of good feedback from members and visitors.

Satellite Boxes

We have purchased four new satellite boxes which have been replaced on holes 7, 8, 9 and 12 and we are currently in the process of repairing or replacing the sprinklers on these holes. Thank you to T & G Irrigation for facilitating this process. On completion of this, we will have twelve holes that are fully functional using satellite boxes and will no longer be required to be watered manually.

Tee Boxes

We have successfully levelled another 11 tee boxes as part of our plan and process to get the course in a more playable condition.

As I write this, I look outside and wonder what on earth is going on with Mother Nature! Goodness, icy weather indeed for this time of year! I am so grateful for the rain after many months of dry weather. All our sellers who wait for Spring, to showcase their homes, had a lot longer to wait this year. Is there a right or wrong time of year to market your home? We used to be able to predict better selling periods but, 2023 has broken all the trends. There does not seem to be any appropriate time to launch your property onto the market. This said, as we approach the end of the year, if you need to sell and are thinking that 2024 is going to be a better time to do this, think again, as this cycle seems to be uncertain to say the least. My suggestion is, when you are ready, call us and we will advise you to follow your plan, don't sit and wait. Somewhere in the universe is your buyer and they may very well be looking over the Festive Season! Call Matt and Nicci for sales and Sue for rentals.

MANDATORY DISCLOSURE FORM

Written by Tamaryn Campbell - Attorney, Conveyancer and Notary Public

A property practitioner has an obligation to obtain a disclosure form from a seller or landlord. The form is used to disclose all defects or deficiencies in the property that are known to the seller or landlord to the prospective purchaser or tenant.

It can be extremely challenging for property practitioners selling or leasing a property to prospective buyers or tenants, when the expectation is that there should be little to no defects or deficiencies in a property. Transparency is therefore key when dealing with a property sale or lease.

Section 67 of the Property Practitioners Act (PPA) obliges property practitioners to obtain a mandatory disclosure form from a seller or lessor before concluding a mandate. Once completed the mandatory disclosure form must be provided to the prospective purchaser or lessee who intends on making an offer for the purchase or lease of the property. The form must be signed by all the parties to the agreement and attached to the sale or lease agreement.

Failure to comply with these provisions will result in the agreement being interpreted as if no defects or deficiencies of the property were disclosed. The property practitioner accepting a mandate without a disclosure form may expose themselves to be held personally liable for damages or loss.

The guidelines issued in the PPA should be followed and caution should be taken as the guidelines exist to protect the property practitioners, buyers, sellers, tenants, and landlords from possible legal proceedings.

GARDENING

It's Summertime

Spend more time in your garden this month to keep on feeding fast growing plants, lawns and it's time to also add lots of summer colour into your flower beds. Pretty up your entertainment area with beautiful flowering plants.

What to do in your garden

For a healthy garden keep feeding frequently and watering your veggies and flowers to strengthen them against pests.

Tackle the garden floor

Garden floors are also a trend lately. Give your entertainment area a new look. Get ideas of garden floors or top up the gravel with a fresh load of stones after you have weeded the area first.

Tackle weeds and pests

Unfortunately, a lush, verdant lawn is at the mercy of weeds and pests. The most common pests found in the lawn across South Africa are white Grub, Mole crickets and lawn caterpillar- all of which can wreak havoc on a lawn in a short space of time. If you are unsure what pests are plaguing your grass- water an area with bucket of water and dish washing liquid, this will draw pests to the surface, enabling you to identify the culprits. Once you have established what type of pest you are dealing with, consult an expert in lawn care. They will be able to advise as to the best way to treat the problem, as well as how best to avoid re-infestation.

To purchase natural gardening products or for more info on how to be eco-friendly give us a call: 073 935 9754 - Jerida School Rd, Plot 17, Diepsloot 2189, Johannesburg

Colour plants for this time of the year are

Petunias: very pretty and perky in the flower bed.

Portulaca: low but spreads quickly.

Celosia: colourful and long-lasting summer colour plants.

Dianthus: guaranteed to brighten any summer garden.

Salvia: excellent for summer and makes a bold colourful statement.

Marigolds: long-lasting and heat tolerant.

Zinnia: Seed or plant seedlings they will bring in amazing colour.

Birding DAINFERN

By the late André Marx (Archive)

Purple Heron

Ardea purpurea

This is one of the more shy heron species in our region and it can best be described as an occasional visitor to Dainfern. But it is a striking bird and well worth keeping an eye open for. Unlike the more common Grey Heron and Black-headed Heron, this bird is richly coloured and shows a combination of black, grey, brown, buff, white, rufous and vinaceous colours, combined with a bright yellow bill, legs and eyes. It is the long black-striped head and neck that is one of the most distinctive features.

One of the reasons this species is not that regular on the estate is because of its habitat preference. It is a shy and retiring bird of fairly dense wetland vegetation, especially sedges and reedbeds, and this is a habitat type that is not found everywhere in Dainfern. But there are a few dam areas with many reeds particularly around Sawgrass Village and here the bird can be seen from time to time. It can easily be overlooked at times as it has the habit of freezing for periods when hunting for prey and with its cryptic colouring it can be missed amongst the reeds.

Purple Herons hunt on the edge of wetlands, feeding mostly on fish but also on insects and amphibians, and even on reptiles and birds occasionally. They will breed mainly in the period from Sep-March with a peak around Sep-Oct, laying from 2-5 eggs, usually 3, making their nest on a platform in dense reedbeds. The young are fully fledged at 30-35 days but are usually only fully independent at 55-65 days.

One of our special and seldom seen birds that will continue to occur on the estate within wetland habitats, which need to remain as healthy and pristine as possible.

The photo was taken during a bird walk at the Sawgrass Village dams.

ENVIRONMENTAL

By Himkaar Singh
CEO The Compost Kitchen

Grow Back Better

I can almost hear **nature telling us to wake up and realise** what we're doing to ourselves.

The industrialisation of our food system has gratefully given us perfect-looking bananas and tomatoes, but has led to epidemic levels of lifestyle-related diseases. By now there's no doubt that health is most important, after rugby, and although washing hands seems like the answer to all problems, **good health always starts with food.**

However, "Despite a clear link between food and health, medical students receive fewer than 25 hours of nutrition education during their four years of medical school, instead focusing on a pharmaceutical-based disease management system," Rodale Institute. This means that when it comes to improving our health through better food, we are on our own.

Home food gardening doesn't have to be about trying to replace 100% of our supermarket vegetables and live off the grid (although that is the dream)... It can also be about supplementing our diet with food that is of higher nutritional benefit than anything we could buy. Even enough for a salad every day, or seasoning of our meal is great... In every meal there should be at least one ingredient which we are absolutely sure how it was grown.

Those of us who have tried to grow organic, have been tried with pests, weeds and disease. But why is it so hard?

It is because we are trying to garden with habits which are not meant for us in SA, which originated about 100 years ago when gardening books from England were circulating

ENVIRONMENTAL

continued from page 21

the world. For example, we should not be turning our soil, I know it makes it look fluffy and fresh but, it is the most harmful habit which we do.

see full science here:

www.compostkitchen.com/post/turn-soil

In England, food gardeners used to turn their soil because it made the under layers thaw so that they could start planting earlier – but we don't have that problem. Additionally, have you ever asked why do we make raised beds? They are so much effort, so why do we do it? In Britain they tend to have incessant rain which waterlogs the soil, so raised beds allow excess water to drain away from the roots. But here in dusty dry South Africa, we should be doing the reverse!

We are waking up and I think the evolution of our food system is inevitable.

We will change the world, one garden at a time.

Home without the Clutter

The main trait of a clutter bug is denial. Who me? I do not live in a mess. I can throw things away that are chipped or broken. I can live in a home without clutter!

“ Edit the room, select the best things you have and enjoy them, change them around seasonally or as the fashion you follow dictates, it is important that the room expresses the personality of the owner, but we do not need their whole life story in one room. ”

A clutter bug is a compulsive collector who cannot bear to put worthless things in the bin (garbage) or throw anything away that is broken. They have to have all their possessions on show, and hence they always have a dusty house because it is so difficult to clean. At first glance their home looks like a tip, but it is often ordered, just very busy and full.

So, can we cure the clutter bug?

Yes we can! They just have to want to change. With a little persuasion and a lot of heartache it can be done.

Step 1 – Act like you are about to move house. Take everything out of the room. (Do this one room at a time or the clutter bug just will not cope.)

Step 2 – Bring back the most important things for the room. For example a living room, the sofa, couch, chairs, TV, stereo, side tables, or the bedroom, bed side tables.

Step 3 – Work out where all the important things sit in the space. Move them so the space flows and that you can move freely around the room. Then sit down and have a look around, breathe in, how do you feel? You should feel liberated. You will find that your chest feels lighter, the air seems to flow better, (could be something to do with Feng Shui), or just that you are not having to fight with multiple colours and textures around the room.

Step 4 – Start layering. Select a few things at a time to bring back into the room to decorate with. Paintings, pictures, a vase, a rug, lamps. Do it slowly and feel how the space is changing. Pick out the best items that you want to show, do not use all of them. Edit the room, select the best things you have and enjoy them, change them around seasonally or as the fashion you follow dictates, it is important that the room expresses the personality of the owner, but we do not need their whole life story in one room.

Step 5 – Stop! Yes, do not keep going. Less is better in a room. Put all the remaining items in storage until you are happy with the new space. Then after a few weeks, sort through it all, keep what is reusable, and donate the rest to a good charity or sell it on marketplace. You can cure the clutter bug.

P.S. This illness can easily creep back, make sure if you are going to add new things that you do it slowly and really consider their impact on the space, you may have to take something out to make room for it. If not, you will again suffer the dreadful fate of becoming a recurring clutter bug.

You can do this, we can cure the clutter bug and create a potential interior decorator out of you yet. Give it a go now.

Regular Donations

As always, this month, we have had many calls for food and clothing for those whose shacks have burned down in Diepsloot. We thank everyone who donates regularly and a big shout out to **Bradley Farr** who supplies us often with large Addis Boxes filled with 30kg food – a month’s supply for a family.

The Lovemore Foundation team with food parcels

LLA/Lovemore Foundation clean-up team

Once again, **Bags of Love** supplied each of the fourteen members of the LLA/Lovemore Foundation clean-up team in Fourways with a food hamper containing a month’s supply of food for a family. These dedicated, hard-working people are unemployed and spend hours clearing our suburbs to make our lives more pleasant. It’s the least we can do!

We are incredibly grateful

Each week, via **Bags of Love**, the team also receive sandwiches and fruit supplied by three local families in and around our estate – for which we are incredibly grateful. The food is enjoyed by each of the team following their clean ups at the weekends and is always well appreciated.

A reminder here that learners can earn community hours by making sandwiches and similar fresh foods for those who are unemployed or struggling.

The Stylianou family are sandwich makers and they supply fruit as well.

Ingrid Conroy makes and delivers sandwiches, with fruit, each week!

Community Hours

Bags of Love and an organisation called **Community Hours** are currently in talks with the Admins of I Love Fourways regarding their recent call out for the Fourways community to work together to provide relief for the increasing number of individuals and families who do not know where their next meal is coming from.

We have already started off with a good response from the Dainfern community in terms of food hampers and generous cash donations and appeal to our own community to keep assisting those in need. We will provide updates on this exciting project in coming months.

Shack Fire

Two shacks burned at Diepsloot Ext 5, House no 4082 Lacoste Street. Two families affected with children aged 3 & four month. Nothing came out. Food, blankets, materials to rebuild the shacks, clothes, pots to cook will assist a lot.

Beautiful baby Princess

We gifted a Dainfern security staff member with a Bumbo baby seat, foldable baby bed with mosquito net and various other useful items for his beautiful baby Princess. He tragically lost his wife during the birth and is battling to come to terms with it all. The Dainfern community has been extremely generous and we hope we have made a difference to their lives.
